

# R1-1

## Stop

**CATEGORY**

Regulatory Signs

**SHAPE**

Octagon

**COLOR**

Red background, white legend and border

**TYPICAL CA MINIMUM SIZE**

30" x 30" minimum; 36" x 36" on multilane or higher-speed roads

**COMMON TCP PLACEMENT**

Point of regulation within the activity area

**CA MUTCD REFERENCE**

CA MUTCD Part 2B (Regulatory Signs)

### FIELD USE NOTES

Requires every driver to come to a complete stop at the marked stop line, crosswalk, or intersection before proceeding when it is safe. In the field, R1-1 Stop is typically positioned at the point of regulation within the activity area. Common deployments include temporary intersection and access control; portable stop control at construction entrances; reinforcing right-of-way around a work area. Always confirm its size, retroreflective sheeting, spacing, and placement against the CA MUTCD 2026 and the reviewing agency before finalizing the traffic control plan.
