

R1-2

Yield

**CATEGORY**

Regulatory Signs

SHAPE

Triangle (Inverted)

COLOR

Red and white background, red legend

TYPICAL CA MINIMUM SIZE

36" equilateral triangle minimum

COMMON TCP PLACEMENT

Point of regulation within the activity area

CA MUTCD REFERENCE

CA MUTCD Part 2B (Regulatory Signs)

FIELD USE NOTES

Requires drivers to slow down and yield the right-of-way to traffic and pedestrians, stopping only if necessary to avoid a conflict. In the field, R1-2 Yield is typically positioned at the point of regulation within the activity area. Common deployments include temporary merge points and construction access; yield control where stopping is not required; supporting alternating movements near work areas. Always confirm its size, retroreflective sheeting, spacing, and placement against the CA MUTCD 2026 and the reviewing agency before finalizing the traffic control plan.
