

# R3-1

## No Right Turn

**CATEGORY**

Regulatory Signs

**SHAPE**

Rectangle (Vertical)

**COLOR**

White background, black legend, red circle and slash

**TYPICAL CA MINIMUM SIZE**

Per CA MUTCD minimum for the roadway type

**COMMON TCP PLACEMENT**

Advance warning area, ahead of the work

**CA MUTCD REFERENCE**

CA MUTCD Part 2B (Regulatory Signs)

### FIELD USE NOTES

Prohibits a right turn at the intersection or location where the sign is posted, making it a traffic law violation to turn right. In the field, R3-1 No Right Turn is typically positioned at the advance warning area, ahead of the work. Common deployments include prohibiting right turns at intersections affected by lane closures; controlling turning movements at construction-zone approaches; temporary turn restrictions due to pavement work on receiving roads. Always confirm its size, retroreflective sheeting, spacing, and placement against the CA MUTCD 2026 and the reviewing agency before finalizing the traffic control plan.
