Per CA MUTCD minimum for the roadway type

COMMON TCP PLACEMENT

Advance warning area, ahead of the work

CA MUTCD REFERENCE

CA MUTCD Part 2B (Regulatory Signs)

FIELD USE NOTES

Prohibits all turning movements — both right and left turns — at the intersection where the sign is posted. In the field, R3-4 No Turns is typically positioned at the advance warning area, ahead of the work. Common deployments include prohibiting all turns at intersections closed to turning traffic; channeling approach traffic to through movements only; temporary turn restrictions during pavement or lane work. Always confirm its size, retroreflective sheeting, spacing, and placement against the CA MUTCD 2026 and the reviewing agency before finalizing the traffic control plan.
