COMMON TCP PLACEMENT

Advance warning area, ahead of the work

CA MUTCD REFERENCE

CA MUTCD Part 6 (Temporary Traffic Control), Chapter 6F; warning-sign design in Part 2C

FIELD USE NOTES

The W23-2 New Traffic Pattern Ahead sign is a California MUTCD work zone warning sign. It is shown here as an educational reference with the official FHWA Standard Highway Signs layout and California sizing guidance. In the field, W23-2 New Traffic Pattern Ahead is typically positioned at the advance warning area, ahead of the work. Common deployments include used where new traffic pattern ahead conditions apply on a California project; selected and sized per the CA MUTCD and the roadway type; coordinated with the overall traffic control plan and permit. Always confirm its size, retroreflective sheeting, spacing, and placement against the CA MUTCD 2026 and the reviewing agency before finalizing the traffic control plan.
