

W4-1

Merge

**CATEGORY**

Warning Signs

SHAPE

Diamond

COLOR

Orange background, black symbol (temporary traffic control use)

TYPICAL CA MINIMUM SIZE

48" x 48" on conventional roads; 60" x 60" on expressways and freeways

COMMON TCP PLACEMENT

Advance warning area, ahead of the work

CA MUTCD REFERENCE

CA MUTCD Part 6 (Temporary Traffic Control), Chapter 6F; warning-sign design in Part 2C

FIELD USE NOTES

Uses a symbol to warn that two lanes of traffic are merging into one, alerting drivers in both lanes to yield and merge safely. In the field, W4-1 Merge is typically positioned at the advance warning area, ahead of the work. Common deployments include contraflow and crossover merge points; two-to-one tapers where both lanes carry traffic; lane drop approaches in active construction. Always confirm its size, retroreflective sheeting, spacing, and placement against the CA MUTCD 2026 and the reviewing agency before finalizing the traffic control plan.
